MEMORANDUM FOR THE RECORD

SUBJECT: HSC Staffers Mattox/Zeune, Briefing by [REDACTED]

25X1

On 18 August [REDACTED] gave a one-half hour briefing to Charles Mattox and Sandra Zeune on the IG role in overseeing proprietaries. [REDACTED] offered to provide them with the 1967 interagency study on proprietaries, consisting of four interim reports and a final report.

In the course of this, some questions asked were as follows:

1. What would be the IG's role if fraud or misuse of money in a proprietary were uncovered?
2. What would the IG do with a charge that an employee of a CIA proprietary was dealing in drugs?
3. Have you ever asked Audit Staff to investigate whether proprietaries were making political contributions? If you did suspect this was happening, what would you do?
4. How can the Audit Staff be sure it is aware of the existence of all proprietaries, so that all can be audited?
5. Has the IG ever been delayed or denied access to proprietary information?
